Float Plan

EQUIPMENT
(Ensure all are on board and in working order)

- ☐ Protection equipment (eg. lifejackets, throwable devices, boarding device; 1 correct sized lifejacket for each person aboard)
- ☐ Boat safety equipment (eg. oars, fire extinguisher)
- ☐ Navigation equipment (eg. sound signaling device)
- ☐ Repair equipment
- ☐ First aid kit (include dry clothes, water, rations)
- ☐ Communication equipment (VHF radio, cell phone)

MECHANICAL
(Ensure all are in working condition)

- ☐ Navigation equipment
- ☐ Powered devices
- ☐ Engine & fittings
- ☐ Bilge pumps (manual and electric) (should be clear of debris)
- ☐ VHF Radio
- ☐ All hoses and belts

THINGS TO CHECK
(Ensure all are checked)

- ☐ Batteries are charged
- ☐ All fluid levels are full (eg. antifreeze, battery, oil, transmission, coolant)
- ☐ The drainage plug is in place
- ☐ Has enough fuel for the trip (1/3 out, 1/3 back, 1/3 for reserve)
- ☐ Hull / structural damage
- ☐ Oil or water leaks

INFORM
(Ensure all passengers know the following)

- ☐ The location of the first aid kit
- ☐ The location of the distress equipment
- ☐ The location of the PFDs and throwable devices
- ☐ The location of the fire extinguishers
- ☐ Storm weather and falls overboard procedures
- ☐ Radio operations

THINGS TO DO
(These must be done before departure)

- ☐ Get the weather forecast
- ☐ Get updated charts noting hazards and marinas
- ☐ Give a float plan to a responsible person

DOCUMENTATION
(Ensure the following are on board)

- ☐ Boater Education Card
- ☐ Fishing / hunting licenses
- ☐ Radio license
- ☐ Local water charts
